Patna, Bihar, India

Summary

Full-stack developer experienced in React, TypeScript, and Node.js, with 8 deployed full-stack and front-end projects and a 1st Runner-Up finish at HackArena 2026 (GeeksforGeeks collaboration). BTech in Computer Science from Jharkhand University of Technology. Seeking a Software Engineer role to build scalable, user-centric systems.

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, HTML5, CSS3, SQL

Frameworks & Libraries: React.js, Node.js, Express.js

Tools & Platforms: Git, GitHub, GitHub Pages, Vercel, VS Code, Postman

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, RESTful API Design, Full-Stack Web Development, Responsive Design

Experience

Web Developer May 2026 – Present
Shop On Easy Remote

- Developed full-stack e-commerce features using React with TypeScript on the frontend and Node.js on the backend
- Designed and implemented RESTful APIs to manage product, cart, and order data, and built reusable, type-safe React components
- Collaborated remotely with the team to ship features iteratively, debug issues, and improve overall application performance

Web Developer May 2026 – Present
CodeAlpha Remote

- Built and deployed multiple full-stack web application features using modern JavaScript frameworks
- Applied AI-assisted development workflows to accelerate coding, debugging, and feature delivery
- Wrote clean, maintainable code following version control best practices with Git and GitHub

Projects

All projects designed, built, and deployed independently and hosted live on GitHub Pages; click a project title to open it. Demo walkthroughs available on LinkedIn

- **GEC Palamu – College Website:** Responsive college website built for HackArena 2026 in collaboration with GeeksforGeeks; secured **1st Runner-Up** among competing teams
- **ShopEasy – E-Commerce Platform:** Full-stack online shopping platform with product listings, cart, and order flow using React and Node.js
- **URL Shortener:** Web tool that converts long URLs into short, shareable links with a clean, responsive UI
- **Cloud Storage App:** Web application for uploading, organizing, and managing files through an intuitive interface
- **Snake Game:** Classic Snake game rebuilt for the browser using JavaScript and HTML5 Canvas with keyboard controls
- **Webathon Project:** Full-stack web application built during a webathon coding competition under time constraints
- **Hackathon Project II:** Web application developed during a hackathon, focused on rapid prototyping and feature delivery
- **Interactive Web Page:** Single-page interactive front-end project showcasing UI animation and design skills

Achievements

- **1st Runner-Up – HackArena 2026** (GeeksforGeeks collaboration): Recognized for the GEC Palamu project among competing full-stack teams

Education

Jharkhand University of Technology (JUT), Ranchi 2025
Bachelor of Technology, Computer Science Engineering

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering
